I worked with Gary at Iowa Electric and got to know him through work. He was a very smart man and had great insight into human nature that served him very well. I was very sorry to hear of his passing...

Kay and family, My heartfelt sympathies to you all. We shared alot of mutual time at Riverside with our husbands eating at tables next to each other, outside enjoying mother nature, and quiet times talking about our husband's, both with advanced parkinson's. I wouldn't have known this, but it was in Sat's Ames Tribune; I buy the paper only for the TV GUIDE, and noticed this but could not remember your last name. Then when I saw Katherine, I was even more puzzled until I read someone's condolence to you Kay; then I knew it was you and Gary, the person I got to know for 3.5 months at Riverside. May God comfort you know and in the day's, months, and years ahead. Glad you took the time to talk to me about different nursing homes too since Riverside was NOT a good place for Jack and me; we love it at Nevada's old hospital long term care unit. I'll always remember wearing his shorts and getting around very well on his own in his wheelchair ;) Betty and Jack Gordon, Ames
